SHE
Post-occupancy Evaluation Survey
SHE is a powerful data collection vehicle feeding ongoing research projects about the design, performance and experience of spaces from the occupants’ perspective now and in the future.
The SHE survey innovates by collecting valuable data about human, organizational and environmental-related variables.
SHE can map how combined human, organizational and environmental-related variables may affect occupants’ satisfaction, productivity and health (physical and emotional).

- **Satisfaction**
- **Productivity**
- **Physical and emotional health**
Typologies:

- Workplaces
- Learning spaces
- Residential and student accommodation spaces
- Short/COVID-19 version workplaces
Survey questions

- Sociodemographics
- Occupancy and Working Arrangement
- Transportation
- Indoor Environmental Quality
- Water
- Office Layout, Ergonomics and Aesthetics
- Nutrition
- Workplace Wellness and Engagement
- Sleep
- Health and Wellbeing
- Personality
- Overall Evaluation
SHE is endorsed for use in WELL v2, Green Star and NABERS IE
