

## Risk and Resilience in the Built Environment – Programme

The Atrium Room, the Docklands Hub  
80 Harbour Esplanade, Docklands VIC 3008.

A Briefing Pack will be provided on the morning of the 27<sup>th</sup> of April.

### Day 1 – Thursday 27<sup>th</sup> April 2017

A challenging symposium on the morning of April 27<sup>th</sup> (followed by a workshop on the 28<sup>th</sup>), will begin with four dynamic speakers to frame the big picture on climate change, risk and resilience in the urban environment, governance and planning responses and community and development options. The symposium will involve up to 40 participants (from professionals, community people, academics, business, and students) who are all experiencing the vagaries of climate change, uncertainty and complexity in their daily workplaces and practices and seek ways to better engage with these as elements in their urban realities.

Time		
9:00 – 9:30	Registration/coffee morning tea	
9.30 -9.45	Introduction and Acknowledgement to Country	
9.45-10.15	Climate change and government responses	Professor Kaye Auty - ACT Commissioner for Sustainability and Environment
