TASK 01 // Airport Study

TAXI PERSONAL + UBER

TERMINAL 1
VEHICLES ARRIVING

FOR DOMESTIC FLIGHTS
PEOPLE GET TO THE AIRPORT 30
MINS TO 1 1/2 HRS BEFORE THEIR
FLIGHTS.

THIS GRAPH SHOWS FLIGHTS
DEPARTING AT TERMINAL 1, 30 MIN
TO 1 1/2 HOURS AFTER WE
COLLECTED THE DATA AT THE
DEPARTURES DROPP OFF.

HOW MANY VEHICLES?

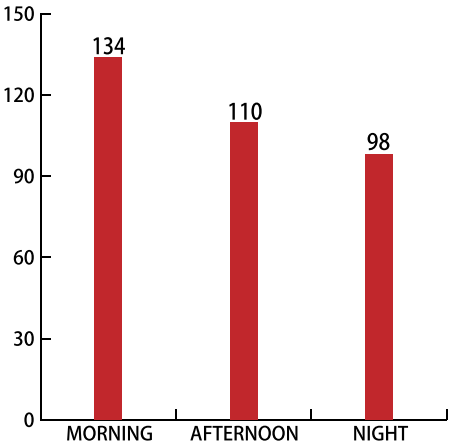

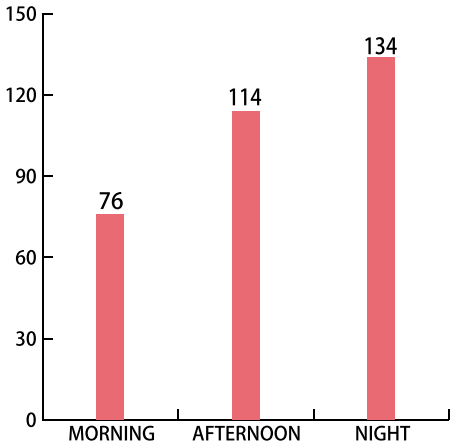

MORNING

AFTERNOON

NIGHT

WHO IS COMING?

MAX.
1 USHER

Telling cars to **MOVE ALONG** if they parked for too long

Answering **QUESTIONS** for lost travellers

MORE SPACE meant that passangers spent **MORE TIME** saying goodbye and therefore cars were **PARKED LONGER**

NO QUEUE as there was excess parking provided past the terminal doors, so spill over moved forward

HOW LONG ARE PEOPLE STAYING?

WHAT IS THE SPACE USED FOR?

+

Drop Off

Trolleys

Walking

Saying Goodbye

TAXI PERSONAL + UBER

TERMINAL 2 VEHICLES ARRIVING

FOR INTERNATIONAL FLIGHTS
PEOPLE GET TO THE AIRPORT 3
HRS BEFORE THEIR FLIGHTS.

THIS GRAPH SHOWS FLIGHTS
DEPARTING AT TERMINAL 2, 3
HOURS AFTER WE COLLECTED
THE DATA AT THE DEPARTURES
DROPP OFF.

CAR/UBER

WHO IS COMING?

5 ushers in the MORNING
1 all other times

VITAL in during PEAK hours to push on traffic and maximise the number of cars in the SPACE

Cars needed organising

MAXIMUM
5 USHERS

HOW LONG ARE PEOPLE STAYING?

People spend time parked to say goodbye

People leave immediately after exiting the car

WHAT IS THE SPACE USED FOR?

TAXI PERSONAL + UBER

TERMINAL 3
NO. OF VEHICLES ARRIVING

MORNING 8am - 9am

TOTAL VEHICALS = 198

AFTERNOON 12pm - 1pm

TOTAL VEHICALS = 160

EVENING 7pm - 8pm

TOTAL VEHICALS = 214

FOR DOMESTIC FLIGHTS
PEOPLE GET TO THE AIRPORT 30
MINS TO 1 1/2 HRS BEFORE THEIR
FLIGHTS.

THIS GRAPH SHOWS FLIGHTS
DEPARTING AT TERMINAL 3, 30 MIN
TO 1 1/2 HOURS AFTER WE
COLLECTED THE DATA AT THE
DEPARTURES DROPP OFF.

T3 DATA

WHO IS COMING?

MORNING		100		54		32		12
AFTERNOON		70		48		26		16
NIGHT		80		66		44		17

2 ushers in the MORNING
1 all other times

To GUIDE and ORGANISE
drivers in the space

MAXIMUM
2 USHERS

WOULD THESE BE NEEDED
FOR AV?

HOW LONG ARE PEOPLE STAYING?

INCREASED due to the need to PAY?

WHAT IS THE SPACE USED FOR?

TAXI PERSONAL UBER ARRIVALS

TERMINAL 4
NO. OF VEHICLES ARRIVING

MORNING 8am - 9am

TOTAL VEHICLES = 131

AFTERNOON 3:30pm - 4:30pm

TOTAL VEHICLES = 262

EVENING 9pm - 10pm

TOTAL VEHICLES = 30

FOR DOMESTIC FLIGHTS
PEOPLE GET TO THE AIRPORT 30
MINS TO 1 1/2 HRS BEFORE THEIR
FLIGHTS.

THIS GRAPH SHOWS FLIGHTS
DEPARTING AT TERMINAL 4, 30 MIN
TO 1 1/2 HOURS AFTER WE
COLLECTED THE DATA AT THE
DEPARTURES DROPP OFF.

NIGHT

! REBEL ALERT

Due to crowding in ARRIVALS, people came to the empty DEPARTURES to pick up people!

CARS TO PICK UP

TAXI CAR

PRIVATE CAR/UBER

WHO IS COMING?

WHERE WAS THE USHER?

Ushers came in and out randomly at T4 - appearing to have no need to organise the cars

Purpose: to check everything is OK!

! REBEL ALERT

ILLEGAL PARKERS were far more coming at **NIGHT TIME** as there was **NO SUPERVISION** and **LITTLE DEPARTURES**

HOW LONG ARE PEOPLE STAYING?

WHAT IS THE SPACE USED FOR?

* with the exception of **FAMILIES** who took an extended amount of time

People with **LUGGAGE** took, on average, an extra 30sec to leave

IN OFF PEAK TIMES...

An **UNEEDED QUEUE** was formed behind cars that parked in spot midway - despite front spots being free

IN PEAK TIMES...

Up to 3-5 people waiting in the **QUEUE** at peak times

WHAT DO THE TAXI DRIVERS THINK?

			
DO YOU SPEND TIME AT THE TAXI RANK?	✓	✓	✓
HOW LONG WOULD YOU WAIT AT THE RANK FOR?	2H	1H	2H
DO YOU THINK THERE IS ENOUGH SPACE AT THE TAXI RANK?	✗	✗	✗
WHERE DO YOU GO MOST OFTEN?	DEPARTURES	ARRIVALS	DEPARTURES
WHERE DO YOU GO AFTER YOU GO TO DEPARTURES?	TAXI RANK	TAXI RANK	TAXI RANK
HOW LONG DO YOU WAIT IN THE QUEUE AT DEPARTURES?	10min	10min	5min

TOTAL AREA				TOTAL VEHICLES	=	2333			

FUTURE ASSUMPTIONS

Scenario 1: if all automatic vehicles are public owned or owned by big companies

- The airport don't need short-term or long-term parking spaces for passengers but there need places for the automatic vehicles to circulate from departure to arrivals or other parts of the airport.
- Drop off and traffic flow will be quicker and the drop off zones could be used more efficiently compared to human drivers, especially for the two domestic terminals.

Scenario 2: if there are mix of privately-owned automatic vehicles and public/commercial automatic vehicles

- The demand of parking spaces, particularly long term will decrease as people can just send their automatic vehicles home.
- The drop off process will be quicker as they do not have to interact and complete the transaction with the drivers. The whole traveling process would be even faster with the integration of luggage check-in on board of the automatic vehicles and automatic bag-drop.
