Learning and Teaching Initiatives Round 2, 2019

Chancellery (Academic)
Melbourne CSHE
Learning Environments

Today's Goal

- Have a chat about *Learning and Teaching Initiatives*
- Let us tell you what we are looking for ...
- Let you tell us what you are interested in ...
- Generate ideas for compelling projects that can be supported.

It could take 10 minutes and that is OK

LTI Priorities

The Learning and Teaching Initiative (LTI) grants support three FlexAP activity streams

- Stream C: Intensive Summer and Winter Subjects
- Stream D: Online Subjects
- Stream E: Assessment Reform

LTI Round 1, 2019

53 applications

52% overall success rate

71% Intensive Summer and Winter

29% Online Subjects

43% Assessment Reform

Positive: Assessment

Not so Positive: Online Subjects

Intensive Subjects

Why: Blended proposals;
Some Academic Divisions
with no proposals

Why: Low Volume;
Some Academic Divisions
with no proposals

What are we looking for?

Intensive Summer and Winter

Applications that:

- seek to move existing semester-based subjects entirely to the summer and winter terms;
- seek to reduce the number of streams of large, semester-based subjects by offering a summer or winter version of the subject;
- propose single subjects or pairs of subjects that are intensively delivered in less than 6 weeks within the standard semester; and
- propose subjects with current or projected enrolments of over 100 students.

What are we looking for?

Online Subjects

Development of Subjects that:

- Are “Signature”
- Incorporate high quality online learning and assessment experiences that are suitable for medium to large cohort sizes;
- Are designed to deliver high quality online learning experiences for first-year students; and
- Are interdisciplinary and can be taken by students from diverse disciplinary backgrounds.

What are we looking for?

Category 4: General Teaching and Learning

- Are **not** FlexAP-oriented
(i.e. proposals that are inappropriately considered in Categories 1, 2 and 3.)
- BUT ... will also support small-scale pilot initiatives (less than \$10,000) which may enable a full Category 1, 2 or 3 application in a future round.

Non LTI:

Plus 300

Educational Video

Happy to chat about this too!

FlexAP: Finances

		Investment (per subject/cluster)		Support available to Academic Divisions via FlexAP strategic funding to:	
Activity stream	Title	Chancellery funding to Academic Divisions from FlexAP budget	Academic Divisions' co-investment	MCSHE	Learning Environments
A	Plus 300 subjects	\$17,500 [#]	\$17,500 [#]	Yes	Yes
B	Educational video	\$5,000 [#]	\$5,000 [#]		Yes
C	Intensive, summer and winter subjects	\$10,000	\$10,000		
D	Online subjects	\$10,000	\$10,000		Yes
E	Assessment reform	\$80,000*		Yes	Yes

[#]Up to these amounts will be provided dependent on the scale of the proposed activity.

*The Assessment Reform activity stream targets clusters of subjects. Up to \$80,000 will be available per cluster.
